Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action is in response to Applicant's response filed on 03/20/2006.
2. Claims 1-46 are pending.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-46 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Stefik (U.S. pat. No. 5,715,403) in view of **the newly found prior art Tadayon et al (U.S. Pat. No. 6,876,984, filed on May 31, 2001).**

As per claims 1, 6, 10-15, 20, 21, 25, 27-32, and 38-44 Stefik substantially discloses a system for ensuring that licenses are in place for using licensed products (which is readable as Applicant's claimed invention wherein said a method for providing to a first content package having a first license associated therewith), the method comprising:

Receiving first data indicative of the first license, wherein the first license specifies one or more terms governing the relicensing of the content package (see., abstract, col 2, lines 21-44, col 9, lines 19-31, col 44, lines 33-55); and

Art Unit: 3621

Licensing the first content package for use on the first computing device in accordance with said one or more terms (see., abstract, col 2, lines 21-44, col 9, lines 19-31, col 44, lines 33-55, and one or more terms or conditions see., col 4, lines 14-24, specifically conditions to exercising the right or if license fees have not been paid). Stefik further discloses the encryption keys (see., col 15, lines 24-54).

Stefik fails to explicitly disclose a payment is a condition for licensing content and revoked or made unusable as a condition for issuing a different license.

Tadayon discloses a usage rights for a digital work where the usage right associated with the digital work and/ or license are checked to determine whether all the conditions, such as payment, associated with the usage rights have been satisfied, otherwise revoked rights (see., abstract, col 4, lines 31-58). It would have been obvious to a person of ordinary skill in the art at the time the invention was made to modify the teaching of Stefik by including the limitation detailed above as taught by Tadayon because this would determine that the payment associated to the license is verified.

As per claims 2 and 3 Stefik discloses the claimed method of determining that licensure of the first content package for use on the first computing device is consistent with a first of said one or more terms (see., abstract, col 2, lines 21-44, col 9, lines 19-31, col 44, lines 33-55, and one or more terms or conditions see., col 4, lines 14-24, specifically conditions to exercising the right or if license fees have not been paid).

Art Unit: 3621

As per claims 4, 5, 18, 19, 22, 23, and 26 Stefik discloses the claimed method wherein said terms requires collection of a payment as a condition of licensing the first content package for use on the first computing device, and wherein said action comprises collecting said payment (see., col 2, lines 21-44).

As per claim 7, 8, 9, 16, 17, 24, 33-37, and 45-46 Stefik discloses the claimed method wherein the content package comprises a content portion and the first license (or repository, figs 1 and 2), and wherein said licensing act comprises:

Creating a second content package which comprises:

Said content portion (or repository); and

A second (or usage rights associated with repository 2) which permits access to said second content package on the first computing device (see., col 7, lines 16-48, figs 1 and 2); and transmitting said second content package to the first computing device (see., col 7, lines 16-48, figs 1 and 2, col 8, lines 1-32).

RESPONSE TO ARGUMENTS

5. Applicant's arguments filed on 03/20/2006 have been fully considered but they are moot in view of new ground (s) of rejection.
